MEMBER OF HUERTA'S CABINET WILL RESIGN

(By Federal Wireless Telegraph.)
CITY OF MEXICO, November 12.—(Special to The Advertiser)—An announcement was made today that Minister Adalpe, of Huerta's cabinet, is "seriously ill because of overwork."

This presages the announcement that Adalpe will retire from the cabinet. He has been at odds for some time with General Blaguet and Minister Moreno and his retirement will make the "war element" among Huerta's advisors supreme.

Senator Adalpe voted with other ministers on matters affecting the foreign policy of the present government, but has been the center of some stormy debates before yielding to the pressure of his colleagues.

Runners that Chihuahua has fallen into the hands of the rebels were circulated here today and denied by the government.

Japanese Government Decides to Protect Its Citizens in Mexico.

TOKIO, November 12.—(By Associated Press Cable)—The decision has been reached by the Japanese government to send the armored cruiser Jauregui to the West Coast of Mexico for the protection of Japanese in that country.

The decision on the part of the Japanese government is a very recent one. Speaking of the Mexican question a few days ago, Baron Makino, the foreign minister, said the attitude of Great Britain, Germany and France, who are reported to be helping President Huerta, is at variance with the policy of the United States. It has been reported that competition for the acquisition of oil rights in Mexico is responsible for the present friction between Great Britain and the United States, but the foreign minister did not believe that the foreign policy of Great Britain could be governed by such a minor consideration. As to the attitude of Japan, he said it is one of strict neutrality, nor has the Japanese government yet consulted any foreign power on the question of Mexico. Japan has strongly urged upon the Mexican government, however, the necessity of according full protection to the lives and property of the four thousand Japanese resident in that country.

The Fruits of Continued Civil War in Mexico

McDuffie's Reinstatement Is Approved by Civil Service Commission; Kellett Hearing Next.

(From Thursday Advertiser.)

With quick decisions, based on the reports made to the board of civil service commissioners last evening, Chairman Wirtz disposed of the many problems and questions brought before the board and covering a large number of diversified cases, from the charges against Captain of Detectives McElroy to the naming of a new police clerk. There were at least four matters which the chairman considered of particular importance; the charges against McDuffie and Kellett, the issuance of special police badges to civilians, the murder of Policeman Abreu and the creation of the office of inspector of police.

The case of McDuffie was brought up on the report of Sheriff Jarrett of the former's reinstatement to office at the head of the detective force of the city, accompanied by a letter from Deputy Attorney General Smith to the effect that he had made an investigation against the accused officer was "not sufficient" to warrant a discharge or a reduction in rank.

McDuffie Gets Full Pay.

The chairman asked if McDuffie was to draw pay for the time he had been suspended, as his name was not on the payroll for last month.

Jarrett stated he thought that he should, and after a mild discussion it was so ordered.

The appeal of Detective Sergeant Kellett was then noted, and Attorney Peters stated that he entered an appearance for him and demanded that more specific charges be filed against his client. He also asked for an early trial.

Deputy Attorney General Smith appeared for the sheriff and said he would like extra charges against Kellett by next Saturday.

The commission set next Tuesday at half-past nine o'clock in the morning as the time for the hearing before the commission.

Shooting of Abreu Described.

Just before the ending of the session Chairman Wirtz stated that he would like a report upon the shooting of Abreu.

Sheriff Jarrett went over the evidence of the case and told the story of the shooting of the brave officer. He described how the three officers found a man talking to two women. They stopped their automobile and asked him his name and if he was the man they were looking for, and he denied it. They told him he had better come along with them and the prisoner started to go along quietly. The next moment he had drawn a gun and fired the shot which caused the death of Abreu.

"Such a thing might have happened to me, or to anyone else in the same circumstances," added the sheriff.

"Was the man searched when first arrested?" asked Wirtz.

"No, he came along quietly, and when shot is the case it is not usual to search a prisoner on the street."

There was some discussion on this point and the necessity of searching a man when arrested.

Sheriff Jarrett explained that it was not usual to do this, especially when a man's identity was in question. The three officers, Captain Nelson, Detectives Swanson and Abreu, said the sheriff was all experienced officers and brave men and what had happened could not have been foreseen.

"Well, you might easily have lost all three officers," remarked Chairman Wirtz.

Under Black Flag, Will Sail to Loot the World's Fair in February, 1915.

(From Thursday Advertiser.)

The Honolulu Ad Club voted last night to enlist a crew and equip a privateer, or pirate ship, to seize and loot the city of San Francisco.

Word has come to the survivors of the pirate crew that entered Honolulu harbor last Regatta Day that there is to be a convention of all the clubs of the world at the Panama Exposition, and believing that the rich merchants attending will be comparatively defenseless and will therefore supply much booty in slaves, gold and jewels for the enrichment of Hawaiian coffers, it is anticipated that a large band of freebooters can be got together to sail under the black flag for San Francisco in February, 1915.

All those who have cutlasses, arms and powder are requested to sign the enrollment sheets without delay. Twenty-five thousand rounds of ammunition must be provided.

"Sign the roll, boys, and don't forget the powder," is the slogan. Plenty of ammunition insures much loot and much promotion and much advertisement for Hawaii.

Seventy-five boosters attended the pirate dinner of the Honolulu Ad Club at the Alexander Young Hotel last night.

One hundred members, from South Point to Niihau, will put up one hundred dollars each to form an excursion to San Francisco in 1915, and an effort will be made to raise a total of \$25,000 to pull off a number of vivid advertising stunts in connection therewith.

The question of what the Ad Club is to do in the Floral Parade has been referred to a committee, which will report in three weeks.

FIRST OF NEW SUGAR CROP STARTS

Two Thousand Tons Shipped on the American-Hawaiian Steamer Alaskan From Hilo This Week; Shipments Direct Via Tehuantepec Route Will Begin Early Next Month From This Port.

(From Thursday Advertiser.)

Word of the first "1914 Sugar" of the Hawaiian crop to move toward the eastern markets arrived yesterday morning in messages to the Sugar Factor's Company and to C. F. Morse, local manager of the American-Hawaiian Steamship Company.

The Alaskan was reported in the messages to have left Hilo last Tuesday for San Francisco, with 4000 tons of sugar included in its cargo and 2000 of this represented the first sugar of the new crop to be shipped. Half of the initial shipment came from the Kekaha mill and the other half from the Punahoa mill.

From now on, 1914 sugar will continue moving eastward on every contract steamer and the Columbian, the next A-H steamer to leave the islands is expected to carry 5000 tons. The steamer Columbian is reported to the local agency as having left Seattle for Honolulu yesterday. The tariff changes are not expected to effect sugar prices until March of next year.

The Alaskan carried a good cargo for the off-season for besides its sugar there were in its hold 45,000 cases of pineapples and 300 tons of scrap tin.

The cargo of the Columbian, now en route, is reported to be largely hay and feed stuffs. It has, however, considerable eastern freights for local shippers besides, this including many late holiday consignments.

The New York shipments on the Columbian are those numbered 368, 369, 370, and 371 out of New York. The vessel will arrive on November 22.

It will be followed in turn by the Arizona, due to leave Puget Sound on the first of next month. The regular full shipments of sugar will commence with the Arizona and it will pick up the regular schedule of the line to Salina Cruz direct, being the first of the vessels to start sugar over the Tehuantepec route. It will carry 12,000 tons of sugar.
